

GLOGAR ULTRASONIC BATHS MU-110L LCD

CHF 7'503.50

Furnishing

Programmable washing time 1-30 minutes

Temperature 20-75 ° digitally adjustable

Pulse function for quick degassing

Display and storage of time and temperature

AUTO-OFF Automatic shutdown after two hours of inactivity

Technical specifications

Tank capacity 110 liters

External dimensions LxWxH 750 x 650 x 850 mm

Ultrasonic frequency 38 kHz optionally
also available with 25 kHz

Voltage 400 V

PRODUCT DESCRIPTION

The Glogar high-performance ultrasound devices of the MU series are versatile and are used in the manufacturing and workshop area, as well as in the medical and pharmaceutical industries.

The devices are made entirely of stainless steel and tried with highly effective 38 kHz or 40 kHz ultrasonic transmitters.

If there is a lot of oil or grease, the oil is separated from the cleaning basin by means of surface washing.

The **robust** and **precise workmanship**, as well as the excellent **price-performance ratio**, make the devices of the MU series the ideal all-round solution.

Furnishing

Programmable washing time 1-30 minutes

Technical specifications

Tank capacity	110 liters
External dimensions LxWxH	750 x 650 x 850 mm
Ultrasonic frequency	38 kHz optionally also with 25 kHz
Ultrasonic power effectively	900 W
Ultrasonic power max.	1.800 W
Heating power	4.000 W
Total power consumption	5.000 W
Dry running protection	yes
Degas function	yes
Sweep function	yes
Drain valve Ø	¾"
Voltage	400 V
Basket inner dimensions LxWxH	540 x 320 x 320 mm
Stainless steel lid	support cover
