PRODUCT DESCRIPTION

SABLUX Leanblast 100 S

- Strong blasting results thanks to the blasting gun type 100 "Power Shot"
- Blasting nozzles available in ceramic (as standard) and boron carbide (optional)
- Hinged front doors for ergonomic loading of parts including via crane tracks
- Compact, integrated filter system (expandable with 2 filter cartridges and 2 motors)
- Central control units for pressure setting and filter cleaning on the front of the cabine
- Modern and fresh colour design with a robust, antistatic powder finish
- Large, central inspection windows offer a perfect view into the machine interior
- Optimum working conditions thanks tho the bright cabin lighting of 2 x 18 W
- More stable, robust grating in place of perforated metal shelves
- Long-term guarantee fo replacement parts when using standard products
